A Reputation That's As Comforting As Our Products

While the energy-efficient performance and reliability of a Nexgen brand ASZ14 Heat Pump will validate your purchase decision with dependable indoor comfort for years to come, it's the venerable Nexgen brand name that lets you be confident today. From our world-class engineering and comforting craftsmanship to our legendary lifetime warranties* and many other distinguishing factors, buying Nexgen brand means you can be certain you made the right decision.

SEER-ious Savings—Higher Energy Efficiency, Lower Operating Costs

Get both better performance and lower energy bills compared to lower SEER heat pumps with a properly matched and installed Nexgen brand ASZC18 Heat Pump. It's our top-of-the-line heat pump up to 18 SEER, and the higher the SEER, the greater the efficiency. Chances are your current indoor comfort system was less than 18.5 SEER when it was new and has been gradually losing its effectiveness over its lifetime. So, your savings could be significant.

Quietly Pumping Out Years And Years Of Continuous Comfort

At the heart of the Nexgen brand ASZC18 Heat Pump's dependable performance is its high efficiency Next Generation Copeland Scroll™ Two-Stage Compressor. Featuring premium compression technology and overload protection, its noteworthy durability and reliability are further enhanced by the use of chlorine-free R-410A refrigerant.

The Security Of The Nexgen Brand's Amazing Lifetime Warranties*

To truly seal the deal, Nexgen brand indoor comfort systems are backed by industry leading lifetime warranties*. The majority of our HVAC products are covered by a Lifetime Unit Replacement Warranty*, while all Nexgen brand products feature a 10-Year Parts Lifetime Warranty*. Together these warranties combine to offer homeowners a level of purchase protection that's the stuff of legend.

Comfortbridge™ Technology Compatible

When your new air conditioner is paired with an Nexgen brand air handler with ComfortBridge technology, performance data from the split system is gathered and used to make automatic adjustments that may help reduce the amount of energy used to cool your home.

Always in pursuit of innovative ideas, our engineers have designed ComfortBridge technology to help your entire HVAC system cost-effectively operate at peak performance — providing consistent energy-efficient home comfort. ComfortBridge technology works with any single-stage thermostat to help create customized indoor comfort specifically for you and your family.

Quiet Performance

You can be assured that your Nexgen brand heat pump will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements such as a specially designed sound-control top.

Energy Efficiency

SEER or Seasonal Energy Efficiency Rating is a measure designated by the U.S. Department of Energy and gives you a good idea of the performance you can expect from heat pumps. At a 18.5-SEER cooling rating, the Nexgen brand ASZ18 Heat Pump can deliver an 10 HSPF (Heating Seasonal Performance Factor). When you choose an energy efficient Nexgen brand heat pump, year-round indoor comfort is combined with year-round savings.

* Complete warranty details available on www.nexgenairandheat.com. To receive the Lifetime Unit Replacement Warranty (good for as long as you own your home) and 10-Year Parts Lifetime Warranty, in order to qualify for lifetime replacement warranty you need to be part of the X Protection Family. Membership must be current and up-to-date.

The Next Generation in Home Comfort

THE IMPECCABLE REPUTATION OF THE
FASTEST GROWING HVAC COMPANY

Nexgen brand heating and cooling systems are a part of the enduring legacy of one of California's most recognized and respected companies. Nexgen Air Conditioning Heating and Plumbing is synonymous with long-lasting, premium quality products — from home automation to heating and air conditioning equipment. To provide a truly exceptional customer experience we've partnered with the world's largest manufacturer for heating and cooling systems and they're made right here in the U.S.A.! Generations to come will continue to enjoy the dependable performance and longevity of our Nexgen brand.

Next Generation Copeland Scroll™ Two-Stage Compressor

Designed with fewer moving parts and consuming less energy compared to reciprocating compressors, the compressor uses chlorine-free R-410A refrigerant and will provide years of reliable cooling comfort.

Copeland® Comfortalert™ Diagnostics

Advanced diagnostics constantly monitor your heat pump system, reducing failures and pinpointing trouble spots for a fast fix.

Comfortbridge Technology Compatible

Continuously monitors system performance for customized indoor comfort.

Heavy-Gauge, Galvanized Steel Enclosure With Sound

Control Top - A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.

Factory-Installed Bi-Flow Liquid Line Filter Drier

Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.

Factory-Installed Heater Band And Suction Line Accumulator

Ensures refrigerant is ready even in extreme external temperatures.

Quiet Operation

An acoustically engineered sound control blanket helps reduce noise levels compared to units without sound control blankets.
